

Angela V. Sims-Ceja
MPA, CISM, PMP

Angela V. Sims-Ceja works at a large municipal government agency and serves as a Technical Program manager for critical infrastructure. In her government tenure, Angela has also served as the Senior IT Program Manager for the IT Department, Special Project Administrator and Business Systems Analyst. Angela has lead citywide and department technology projects including Water Advanced Metering, Network Infrastructure, eCommerce Payment Processing and Consolidation, Police and Neighborhood Services Body Worn Cameras, IT Disaster Recovery, Office 365 and several cybersecurity projects. Angela is well versed in technology, management, requests for proposals, contract and vendor management. Her interests include smart cities, cybersecurity, protecting critical water infrastructure, STEM youth development and community service. Angela has served as a board member and scholarship chair for the Colorado Association of Black Professional Engineers and Scientist and serves on the technology, scholarship and mentoring committees for her local chapter of Delta Sigma Theta Sorority Incorporated. She stays current with technology, portfolio management and cybersecurity matters through various organizations such as ISSA, ISACA, Project Management Institute, Women in Cybersecurity (WiCys) and Women in Cyberjutsu.
